

العتايسير ELTAYSEER FOR CONTRACTING AND TRADING

Welcome to El Tayseer for Contracting and Trading

Established in 1971, El-Tayseer Company specializes in infrastructure. Initially, it focused on the reconstruction of the Suez Canal and Sinai regions following the 1973 war, emphasizing water networks, sewage systems, and land reclamation. Under the leadership of a quality-oriented and continuously developing board of directors, the company has grown and evolved, with a strong commitment to credibility and commitment as keys to success.

El-Tayseer Company is a contracting company with over 50 years of experience in infrastructure. The company provides comprehensive services, including tunnel excavation, civil works, road and bridge construction, metal structures, and concrete works. Our work is characterized by quality and safety, and we constantly strive to improve and enhance our performance. We believe in the importance of teamwork and innovation. At El-Tayseer Company, we believe that quality and success go side by side.

Mission

The mission of our company is to provide high-quality and reliable services that meet the expectations of our clients and exceed their expectations. We strive to achieve customer satisfaction by adhering to quality, schedule, and cost commitments, and by applying the highest standards of safety and professionalism in all aspects of our work. Additionally, we aim to create a work environment that encourages creativity and innovation, and fosters the professional and personal growth of our employees.

Vision

Our company strives to be a leader in the field of infrastructure, by providing high-quality services and excellence in all our services. We aim to achieve sustainable growth and continuous development, with a focus on innovation and the utilization of the latest technologies in every project we undertake. We believe in the importance of adhering to standard procedures and safety measures in all our projects.
